

LUIGI OSTONI sas

Via C. Battisti, 38 - 20032 CORMANO (Milano) - ITALY

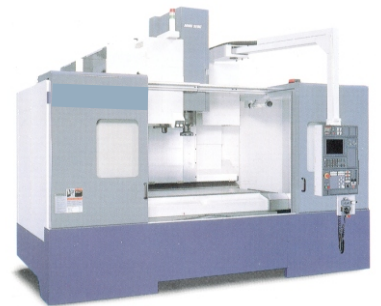

Since 1958

To the kind attention of the
PARTS BUYER

PRECISION MACHINING

Our current machining systems are based on:

- LATHES
- MILLS (also 5 axis CNC)
- MACHINING CENTERS
- DRILLING MACHINES
- GRINDERS
- EDM MACHINES

in both traditional and CNC forms. We have also a

CNC COORDINATE MEASURING MACHINE

and we issue, for any piece we manufacture,
a complete test certification.

We are able to undertake every kind of mechanical production for every field, from one-off or prototyping to small and medium batch high precision machining and assembling works. We have done subcontracting work for various fields, these including aerospace and racing cars industries.

A specific division is specialized in the assembling of mechanical parts and complete machines.
